

## **Vision, Mission, and Objectives of the Quality Assurance Division**

### **Vision**

Excellence in academic and educational performance, achieving credibility through the application of modern quality standards and national and international accreditation.

### **Mission**

To improve the quality of teaching and knowledge acquisition, develop skills, support talents, enhance academic performance, encourage scientific research, and serve the community.

### **Objectives**

1. Achieve the college's strategic vision, mission, and goals.
2. Apply modern quality concepts to raise the academic performance of the college's departments and staff.
3. Encourage and support the college's inclusion in globally recognized rankings, both locally and internationally.
4. Promote awareness of quality culture within the college's departments and units to ensure development and support their objectives in quality assurance and academic performance.
5. Prepare reports and statistics on various topics, such as the college's self-assessment report, staff performance evaluation, and more.
6. Organize conferences, workshops, and seminars to explain quality assurance concepts and how to achieve its objectives for institutional development.
7. Provide support and guidance to departments and units regarding quality assurance, academic, and institutional accreditation.
8. Strive to implement long-term plans to execute quality programs and achieve the college's goals through continuous communication between the unit, departments, and other units.

9. Collaborate and establish relationships with academic, research, and professional institutions and organizations to apply quality assurance and academic performance concepts.
10. Establish a comprehensive institutional database to support the development of operations and improve overall performance.
